FED Abstract

25X1A FRAGMENTARY DESCRIPTION OF RAILROAD BRIDGES (5 pp; German; [REDACTED])

25X1A

25X1X [REDACTED]

The document consists of [REDACTED] pictures and descriptions and histories of several bridges in Poland. The information has apparently been extracted from a book or periodical in which the description of the pictures was not always on the same page as the picture. As a result, in three instances no description is presented for pictures shown in the document and in two instances no photos are contained in the document although picture reference numbers are noted in the descriptions. The document is undated; however, the information contained in the document is extremely dated, the latest date given being 1922. The information is very fragmentary. The document contains the following pictures:

25X1X

25X1A

- Double track railroad bridge near Brzeg Dolny (formerly Byhernfurt)
- Triple track railroad bridge near Scinawa (formerly Steinau)
- Single track railroad bridge near Aufhalt
- Double track railroad bridge near Pommersig
- Single track railroad bridge near Deutsch H. t. kow.

The document also contains a description of an unidentified bridge and of a single track railroad and road bridge near Lubian (formerly Leubus). All bridges mentioned cross the upper course of the Oder River.

25X1A Foreign language document of a microfilm of it [REDACTED] is obtainable from CIA Library, [REDACTED] 25X1A

25X1A [REDACTED] 18 December 1952
